SUMMARY

Full-stack software engineer with 4+ years building web products end to end, from React, Vue, Next.js and Nuxt.js front ends to PHP/Symfony, Java/Spring Boot and Node.js back ends. Works AI-first: uses AI-assisted development daily to ship faster and integrates LLM features into products, with hands-on experience building MCP servers, tool integrations and AI agent workflows. Open to remote roles.

SKILLS

Front-End: React.js, Next.js, Vue.js, Nuxt.js, JavaScript, HTML5, CSS, Tailwind CSS, Mobile/Responsive Development, Figma

Back-End: PHP, Java, Node.js, Express.js, RESTful APIs, SQL/NoSQL Databases

Mobile: React Native

Tools & Delivery: Git, GitHub, Docker, Redis, RabbitMQ, CI/CD, Agile

AI & Tooling: AI-assisted development, LLM API integration, prompt engineering, Model Context Protocol (MCP) servers & tool integrations, AI agents & workflows

EXPERIENCE

Software Developer · [TalkRemit Ltd](#)

Jun 2025 – Present

React · Next.js · Vue.js · Nuxt.js · PHP / Symfony · Java / Spring Boot · REST APIs

- Develop and maintain customer-facing web applications in React, Next.js, Vue.js and Nuxt.js, improving performance, accessibility and user experience.
- Build and enhance back-end services and APIs in Symfony (PHP) and Java (Spring Boot), delivering secure, scalable integrations across the remittance ecosystem.
- Collaborate with product and QA teams to deliver features end to end, optimise performance and streamline deployments.
- Provide second-line technical support to call center agents, helping them resolve escalated customer queries on the remittance product.

Frontend Developer · [Nathan Digital](#)

Jan 2024 – Jun 2025

Vue.js · Nuxt.js · Tailwind CSS

- Developed and implemented user-facing features with Vue.js, Nuxt.js and Tailwind CSS.
- Turned UI/UX designers' mockups and wireframes into functional, responsive web applications.
- Worked with back-end developers to integrate front-end interfaces with server-side logic and APIs.

Software Developer · [Impax Business Solutions Ltd](#)

Sep 2022 – Jan 2024

- Built and maintained web applications, translating design concepts into responsive, user-friendly websites with cross-functional teams.
- Implemented and tested new features, ensuring cross-browser and cross-device compatibility.

PROJECTS

Aptly · Own product

- Property management system for landlords and property managers in the Kenyan market.

CollabFlow

- Project management software.

Issue Tracker

myissue-tracker.vercel.app

React · Next.js · Prisma · Node.js · MongoDB

- Built a full-stack issue tracking app to create, categorise and track issues, with status tracking, user assignment and progress monitoring.

Nairobi House of Style (E-commerce)

nairobihouseofstyle.netlify.app

React · Tailwind CSS · Node.js · MongoDB

- Built an e-commerce store with user authentication, product catalogue, shopping cart and order management.

EDUCATION

BSc Information Technology · [Multimedia University of Kenya](#)

2018 – 2022
